FIELDING WEST

Letter from the boss (and his owner)

It is with great pleasure that I announce the release of Fielding West's new DVDs showcasing his one-man show at Harvey's Resort Casino in Lake Tahoe during the summer of 2003. We filmed the Fourth of July show using four state-of-the-art digital cameras to capture every magical moment. It was a real honor to film a top pro like Fielding in a top showroom like Harvey's. But what is really amazing is that he has actually tipped the workings of his fabulous act. Fielding has performed around the world for the last 25 years and never tipped any of this information before.

Coincidentally, we went to see Fielding just this last week at another nearby venue, the Silver Legacy in Reno, on June 12 and 13 in their Catch a Rising Star Comedy Club. At the end of each show, he received a standing ovation—rare for a magician in a comedy club.

I want to thank Fielding for allowing us to release this fine set of DVDs. If you're looking for comedy magic, look no further. I guarantee you will enjoy these DVDs, one of the most fun projects I've worked on.

Our other big release this issue is Banacheck's PSI Series—this is a complete course on mentalism! Banacheck fooled me with a lot of this material so I couldn't wait to film the explanations! And I wasn't disappointed—the secrets were diabolical and as with most mentalism, very easy to do when the presentation is strong enough. Everything about this series is first class—the contents, camera work, editing, sound—I am proud to bring it to the magic fraternity.

From L&L Publishing — Slydini's Knotted Silks with instruction booklet, DVD and silks!

- ▶ 42 pages of Slydini's annotated instructions and 69 photos
- ▶ 2 custom-made silks
- ▶ DVD of Bill Malone performing and explaining his handling of Slydini's Knotted Silks

**BILL MALONE
ON
DVD**

"The silks"—now known throughout the magic world as Slydini's Knotted Silks—is a masterpiece of magic. The silks don't change color or transform into birds but they do something just as mysterious—they magically untie themselves. Even under increasingly impossible conditions—even when the spectators tie the silks together themselves—they still melt apart. Now, for the first time, everything you need to add this classic to your own act is in one place. First, there's instruction from the master himself as Slydini guides you through the routine step by step in the original meticulously written and photo-illustrated manuscript. Then, pop the DVD in your player to watch Bill Malone, one of the world's greatest magicians working today, perform "Test of Strength," his handling of Slydini's classic routine, for an obviously baffled and entertained audience. Then get ready to learn as Bill teaches his routine in minute detail, complete with all of his own handling nuances. The combination of the written word and the visual medium of

video have, perhaps, never been used to greater effect. Finally, there are the props—two silks of the exacting requirements for the routine, enabling you to have the right materials to begin the learning process immediately. The mystery and entertainment of Slydini's Knotted Silks is now within your grasp. The only thing missing from the equation—and a new generation of enchanted audiences—is you! **\$40.00 An excellent buy for a product of this high caliber!**

Featuring Derek Dingle's *Roll Over Aces* plus John Cornelius' *Marked for Life*. Learning Roll Over Aces can convince an audience you have a supernatural level of skill with a deck of cards. Here you'll learn everything—the full handling, thinking, theatrics and presentation that Michael Ammar has been performing for over 25 years. "The Tonight Show," "World's Greatest Magic," "The International Magic Awards" and televised specials around the world give this routine a pedigree unequaled in card magic.

What distinguishes this signature piece is the sculpting of a theatrically sound presentation for maximum impact.

Viewers will believe you really can stack all four Royal Flushes in exactly 30 seconds, and they'll cheer as you reveal what you've done. Possibly no other effect in card magic can convey as much to an audience, in as compelling a way, as Derek Dingle's Roll Over Aces.

The Restaurant Magic of DAN FLESHMAN

Dan Fleshman has been a professional close-up entertainer for 20 years and performing magic in restaurants has always been at the core of his work. The magic presented here is all in Dan's active, working repertoire and all of it has been tempered in the white-hot fire of real-world performance. This is close-up magic that Dan kills lay audiences with night after night—and now it's yours! On these DVDs, Dan presents his showcase routines. For special tables, Dan reaches into his vast repertoire and performs one of these gems. All of them are closers and are capable of astounding even the most jaded audience. **\$34.95 EACH, \$99.95 3-VOL SET (DVD ONLY)**

VOLUME 1 - APPETIZERS

DAN'S ROPE ROUTINE - A great opening routine featuring elements of the most visual rope and ring & rope magic ever created.

REAL-WORLD MULTIPLYING RABBITS - A classic of magic and a favorite of young and old.

RING AND STRING FLIGHT - A borrowed finger ring almost visibly transforms into the performer's ring, which then penetrates on and off of a length of string in most mysterious ways. The routine comes full circle when the spectator's borrowed ring is found in the performer's key case.

ACE PRODUCTION - In a dazzling display of skill, the four Aces appear to fly right from the center of a shuffled deck.

EVER CHANGING ACES - The red Aces change places with the black Aces under extremely fair circumstances. If you blink, you'll miss it!

BULLET FOR A COWBOY - The Aces all magically change into the Ace of Spades one at a time. For the stunning climax, the cards are turned over and now found to be the Kings.

FOUR THE EASY WAY - Two Aces are produced from a shuffled deck. The third Ace is freely selected by a spectator. Another spectator selects one more card, which is found to not be an Ace. The magician makes good by magically turning this final card into the last Ace.

MAXI TWIST TWIST - A spectator selects a card which is returned to the pack. The four Aces are displayed and each magically turns face down one at a time. The Ace that matches the suit of the selected card turns face up again and then magically turns into the selected card. The other cards are turned face up to reveal that they are no longer Aces but rather, now form a Royal Flush.

THREE CARD TRICK - A spectator counts three cards slowly and fairly into the performer's hand. However, when recounted, a fourth card is found. The extra card is discarded yet there are still four cards. This comedy of errors is repeated several times yet there are always four cards. For the humorous and amazing finish, these cards are shown to be the four Threes.

MOMMA IN MY WALLET - A wonderful combination of the classic Card to Wallet with the Red Hot Momma concept. The back of a spectator's signed card changes color. The card is placed on the table and another card is selected. The tabled card turns into the second selection and the signed card is found in the performer's wallet that the spectator has been holding the entire time.

VOLUME 2 - ENTREES

ACE PRODUCTION - Face-up cards are shuffled into face-down cards yet the Aces are produced in a dramatic way. For the finale, the deck is found to be magically righted.

OIL SLICK - A four-card Oil and Water routine that's guaranteed to fool!

CHAMELEON ACES AND KINGS - The four Aces change one at a time into the four Kings right at the performer's fingertips. The Aces are then found one at a time, face up, in four completely different locations in the tabled deck.

VANISHING ACES - The four Aces are placed face up on the top of the deck and are vanished one at a time only to be found in the center of the deck with a previously-named card sandwiched in between them.

PDQ ACES - A magical game of cops and robbers as the Aces, isolated in a card box, collect three free selections that were previously lost in the deck.

SOME PREDICTION - A selected card is signed. Another card is set aside by the performer as a prediction. The signed selection is mixed among the four Aces and vanishes. The prediction card is found to be the signed card!

MAGIC CARDS - Three cards are selected from a blue-backed deck. The performer introduces three red-backed cards emblazoned with the words "Magic Cards." The three Magic Cards are placed onto each selection and amazingly, each turns into a duplicate of that selection. As a kicker, the previously-blue deck is shown to now consist solely of red "Magic Cards."

TWINS - Dan's version of the Brother John Hamman classic, complete with a surprising kicker ending.

SORRY YOU LOSE - A gambling routine where the spectator is unable to keep track of two Aces and two Threes. The spectator has one final chance to guess which cards are in the performer's hands but finds that the cards are now four of a kind!

FLUSHED OUT - Four Queens and an Ace change into a Royal Flush.

BACK AND FORTH SANDWICH - Two cards are selected. One card is shuffled back into the deck and the other is tabled between two Kings. The magician waves his hands over the tabled cards. The Kings vanish and are found face up in the deck and sandwiching the other selection.

FREEMAN TWIST / TWILIGHT ZONE - A selected card travels back in time as it magically changes places with the performer's card. Traveling further back into time, the face-down deck instantly turns face-up for an eye-popping climax.

JUMBO PREDICTION - A freely-selected card matches a jumbo card in an envelope previously given to an audience member. Highly-commercial with a comical ending.

VOLUME 3 - DESSERTS

CLOSE-UP LINKING RINGS - Dan's version of this stage classic retains every bit of the wonder yet is perfect for all close-up and walk-around venues. Solid steel five-inch rings melt through each other just inches away from the spectators' faces. It looks like real magic—and Dan gives you all the work!

ROLLOVER PRODUCTION - Four half dollars are magically produced one at a time by simply turning over a single playing card four times.

MATRIX - Dan's three-phase version of the classic coin assembly. Four half dollars assemble under a single playing card. The effect is then repeated but this time, the coins return to their respective, separate positions. For the finale, with just a single card used, the coins assemble and then visibly return to their starting positions.

COINS TO GLASS - An audience favorite. Coins vanish from the performer's hand and magically appear, one at a time, in a drinking glass.

CRAYON THRU .25 - A crayon visibly penetrates though the center of a borrowed quarter. This classic of magic is now able to be performed for all ages!

CUPS AND BALLS - Dan's classic routine featuring the **FLESHMAN FLASH** - an amazing final load sequence that will have you reaching for the remote control to watch it again!

BONUS! THE CHINESE LINKING RINGS—

A CLOSE-UP VERSION - This is the video that accompanied the deluxe mini-rings that Dan marketed several years ago. Watch Dan perform an entire restaurant set for an actual audience, including his version of the Rings. His original explanation for the Ring routine follows.

the collected secrets of LUBOR FIEDLER

For decades, Lubor Fiedler's name has been associated with some of the most innovative, magical, visual illusions ever created. Now, for the first time, watch the man himself as he demonstrates, and then reveals, the secrets behind some of his most diabolical creations. Lubor Fiedler's magic is so ingenious that the methods are just as magical as the effects themselves.

UFO Floating Ashtray - An apparently ordinary ashtray floats in the air and even circles around the performer with no visible means of support.

Flash Vanishing Exploding Card - A playing card, removed from a small suitcase, vanishes visibly at the performer's fingertips in a puff of smoke. The card is found once again within the suitcase.

Vanishing Bank Note - A napkin is crumpled and set inside a wine glass, which is then placed on top of an ordinary banknote. The performer causes the banknote to visibly vanish, only to be found within the crumpled napkin.

Going Back in Time (Turbo Card) - A corner is clearly and cleanly cut from a playing card which is then instantly restored by the performer.

Spooky Glasses - Two stemmed wine glasses, placed on an ordinary sheet of glass, move about with no visible means of locomotion.

Burning Cigarette Between Thumb and Finger - The performer holds a lit cigarette by the ends between his thumb and finger without pain or injury.

Showstopper Card - Though a hole has been burned through a playing card by a lit cigarette, the performer is able to miraculously restore it. A marketed item, this effect was performed on television by Paul Daniels.

Royal Fantasy - Four large court cards transform into spot cards right in the performer's hands.

Topologic Square (Just Chance Rings) - In a wagering game, a spectator is asked to decide which plastic rings are linked or unlinked. The final bet is lost as the final rings visibly transform into a jumbo square.

Fifty-Fifty Colour Labels - Two differently-colored plastic tags with punched holes are placed into an opaque envelope and, thrusting a needle and thread through it, the performer is always able to string the tag the spectator was thinking of. This is repeated with the same result. As a finale, the spectator's choice is found to now be the only tag with a hole; the hole in the other tag has completely vanished!

Blue Box Magic - A selected card vanishes and reappears in a previously-examined clear plastic envelope. To finish, the card visibly vanishes from the envelope, leaving no clue to its disappearance or whereabouts.

Lifetime Cigarette - A lit cigarette continuously restores itself to its new, unlit condition, even when its burning tip is placed into a glass of water.

Brain Bag - A comedy prediction as no matter what letter in the word "brain" a spectator mentally selects, the performer shows that he knew the spectator's thought in advance.

Flying Color Cards (performance only) - A red border visibly jumps from one edge of a jumbo card to another.

Liquid Eyes (performance only) - A demonstration of Fiedler's marketed product. Two drops of a black liquid visibly change into what look like pictures of human eyes.

MORE OF THE BEST MENTALISM ON THE PLANET!

MAX MAVEN

PARLOR MENTALISM.

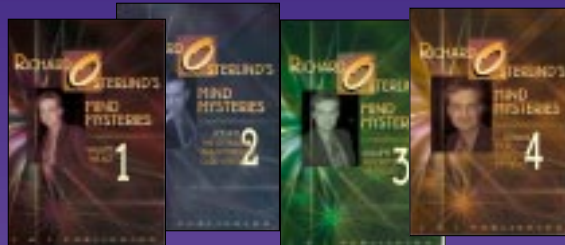

THE MOCKINGBIRD: A sampling from the fabled "Birds of Prey" series. At its core, an inexplicable demonstration of playing card telepathy—but you'll discover how audience participation and an unfolding plot structure can transform an already strong effect into a full-fledged routine. **AUTOME:** An extraordinary book test using plain, ungimmicked props under the fairest conditions. This is a remarkable routine in and of itself, but it also introduces principles for which you'll find a host of other uses. **DIVINEWRITE:** Mutual mentalism with built-in appeal. The performer tries an imposing experiment in clairvoyance, working simultaneously with a member of the audience. Despite the overwhelming odds, the outcome is successful—for both! **ZENVELOPES:** A test of intuition using several participants and a number of ESP symbol cards hidden inside opaque envelopes. These are thoroughly mixed by the spectators, who then pair them off by playing their hunches. When the contents are examined, all the symbols have matched perfectly. **KUROSUKE:** An ancient game from the imperial court of Japan is turned into a delightful routine of stand-up mentalism that lets several people get involved. And, best of all, it can be done entirely impromptu using only borrowed materials. **THE MIND'S EYE DECK:** A pack of some 40 design cards is used. Each one is different, and the deck is shuffled. While the performer's back is turned, a spectator removes a card. Without turning around, the mentalist starts describing the thought-of design, eventually drawing it on a pad of paper. It's as straightforward as that.

CLOSE-UP MENTALISM.

SHAPE UP: One card has been removed from an ESP deck. A person is invited to deal through the rest of the pack, turning cards face-up by one and stopping at any time. The stopped-at symbol is the same as on the card that was previously set aside. **CHANGELING:** A pleasingly simple routine using a handful of ordinary coins, in which the mentalist successfully predicts precisely how many coins will be selected by the spectator. **ISOLATION:** The participant chooses which of several unprepared magazines will be used. That is opened to a random page, from which a random word is noted while the performer's head is turned away. In a convincing telepathic display, the mentalist extracts the word from the person's mind. **KEY TO THE FUTURE:** An amiable variation on the classic "Seven Keys to Baldpate" effect using an ungimmicked padlock and several keys, only one of which can open the lock. This time it is the spectator whose psychic abilities are tested. Will the working key be located—and will the performer know the outcome in advance? **SYMBALANCE:** A standard pack of ESP symbol cards is employed along with two participants. The mentalist divines the first person's thought-of design. He then discerns the second person's symbol with an offbeat demonstration of "tactile intuition." **POSITIVE NEGATIVE:** A lesson in spectator management, in the form of an engaging bit of prognostic pantomime with a baffling payoff. Better yet, it's completely impromptu—you can do it with a moment's notice, using borrowed items. **THE HAWK:** Another impossible card routine from the "Birds of Prey" series. Two spectators select and replace cards while the performer's back is turned. They also shuffle the deck. Nevertheless, the mentalist deals through the face-down pack and stops on one selection, then tops that by promptly naming the other.

STAGE MENTALISM.

GOAL MINE: This is an ideal opener: a routine of mental persuasion that serves to establish the performer's credentials, gets several audience members involved, has a climax that virtually guarantees laughter and applause—and all of the props can fit in your breast pocket. **TOSSED-OUT TECH:** One of the most valuable techniques of mentalism has also been one of the least understood—until now. This section covers an effect that has been a feature item in Max Maven's professional repertoire for over two decades. This is not a basic "bare bones" description; it is an in-depth analysis; knowledge developed through years of study, and honed during thousands of performances. The information that is disclosed here constitutes a virtual "post-graduate course" in mentalism. **KHAN ARTIST:** The performer forecasts how members of the audience will rearrange a set of symbols. The props are so uncomplicated, so innocent in appearance...it's no wonder that this deceptively simple effect has hoodwinked some of the keenest minds in the business. **CONTINENTAL:** Could there be a more direct exhibition of mindreading? Consider this: A spectator thinks of an international location; the mentalist reveals it. The end. There's no advance work, nothing is written down, and there are no props required. You can even perform this over the telephone! **PSIGN:** A prediction, quick and to the point. A large board is displayed, back-out. A spectator selects one of eight different designs, which proves to be the very one printed on the front of the board. The participant can stay seated in the audience—leaving the performer alone on stage at the finish, to accept all of the applause.

RICHARD OSTERLIND

VOL. 1 - THE ACT

BANK NIGHT - Osterlind's original, tried and proven version of a classic, complete with a commercial kicker that will endear you to any audience. A great opener for any act!
THE PERFECTED CENTER TEAR - Complete instruction in the ultimate version of Osterlind's legendary center tear, which can be done in slow motion and completely surrounded. You rip up the paper...and return all of the pieces!
RADAR DECK - Four spectators just think of a card and the performer names them all! The full workings and never-before-disclosed handling tips are here, including instructions on how to make your own Radar Deck.
WATCH ROUTINE - One spectator thinks of a time while another turns the hands of a face-down watch. When the watch is turned over, it's found to display the first spectator's thought-of time. Perform this miracle anywhere, anytime...and with any watch!
THOUGHT SCAN - Originally marketed for \$250.00, Osterlind's version of the classic Q&A routine is an act in itself. If one could actually read minds, it would look like this!
MAGAZINE TEST - In this never-before-released miracle, the performer predicts the word a spectator will circle on a freely-selected page in a magazine. This was the finale for Richard Osterlind's act for many years.
LINKING FINGER RINGS - Wedding bands borrowed from three spectators are linked together in the fairest manner possible. This routine has been called the very best version of this classic effect ever conceived and this is the clearest and most-detailed explanation of the real work.

VOL. 2 - THE OSTERLIND BREAKTHROUGH CARD SYSTEM

CARD CALLING - A group of cards are removed from a shuffled jumbo-sized deck and the performer names them all. This effect, one that will play to the largest audience, has been a staple in Osterlind's stage show for over two decades.
TWO CARDS IN POCKET - A spectator places two cards in his pockets from a deck he's been mixing. Not only does the performer name them but also divines which one is in which pocket. This is a true killer!
CHALLENGE MIND READING - A thought-of card is named without the performer ever touching the deck. Quite possibly the most impossible-looking card trick ever!
CORINDA EFFECT - The performer names a card that was reversed in the deck by a spectator while he was holding the deck underneath the table. This is the trick that started it all!
BLACKJACK DEMONSTRATION - Your spectators will be convinced that you are the greatest blackjack player ever! You not only know their hole card but also instruct them, quite successfully, on how to play their hands!

VOL. 3 - ASSORTED MYSTERIES

SWEETER AND LOWER - Osterlind updates his classic "Sweet and Low" effect. A signed packet of sweetener is torn and restored under extremely fair conditions.
CHANGE OF MIND - This novel routine allows you to predict the coins that spectators will remove from their pockets. Complete instructions are given for making the ingenious gimmick and Osterlind supplies handlings for both close-up and stage.
SPOON BENDING - Learn how Richard Osterlind bends spoons in the fairest and most visual way. A knockout technique that amazes audiences.
RADIO SUM TOTAL - Osterlind's version of Larry Becker's basic effect where the audience forms the problem to a mathematical answer that's already on display. Suitable for a live audience and even more amazing to perform on the radio!
UNCANNY - An ordinary playing card slowly turns over by itself to reveal it's the thought-of card. No threads, magnets or other gimmicks are used!
THE NAIL WRITER - Osterlind's personal handling, plus additional tips, for this ingenious tool.
LOTTERY EFFECT - The performer predicts the winning lottery number that 3 spectators freely form.
CELL PHONE EFFECT - An audience member with a cell phone calls anyone they know and asks them to select a number. It matches the performer's prediction.
BILL IN CIGARETTE - A spectator's signed bill is destroyed and found inside a borrowed cigarette. An incredibly easy and astounding way to perform this classic effect.

VOL. 4 - MORE ASSORTED MYSTERIES

GLASS OF WATER PRODUCTION - Osterlind's classic glass of water production from an empty and examined paper bag. Paul Daniels and many other stars of magic have featured this on their television specials.
IMP PAD - Duplicate one of Dunninger's Brain Busters! This is the real way to get information before the show. Plus, complete instructions are given on how to construct the ingenious pad.
MARKED COIN IN BOTTLE - In this version of one of magic's classic effects, the coin is marked by a spectator before being magically passed into a soda bottle by the performer. The spectator's marked coin is actually in the bottle, which must be smashed in order to retrieve the coin.
SIGNED TORN AND RESTORED POST-IT NOTE - An ordinary Post-It Note is signed and torn to pieces. The performer restores and returns the signed Note in the fairest possible way.
SPIKE BENDING - Metal bending for a large stage audience! The performer passes out huge spikes for examination and then apparently bends them with the power of his mind in full view!
S.O.S. PSEUDO-PSYCHOMETRY BAG - Five spectators drop personal items into a black cloth bag without the performer knowing which person the items belong to. The performer returns each item to its proper owner while giving a psychometric reading for each.
SIGNED TORN AND RESTORED NEWSPAPER - This is the most guarded secret in this video series! Any page is selected from a newspaper and signed by a spectator. The paper is torn in half five times and then restored. The signed paper is then returned to the spectator to keep as a souvenir. What's more, the performer is totally clean at the effect's conclusion. This effect has been fooling the best minds in magic for over 15 years and is finally being released!

TED LESLEY

VOLUME 1 - CABARET MINDREADING

Ace Duet - A deck is freely shuffled a number of times by a spectator yet the Aces are found - all without the performer even touching the deck!
The Spectator as Mindreader - A baffling effect that finds the spectator locating the card the performer merely thought of.
The Working Performer's Card Stub - A card is signed on its back and shuffled into the pack. The cards are scattered face up as the performer thrusts a dagger through one—which is found to be the one previously selected and signed.
Tossed-Out Deck - Wonderful touches on David Hoy's mentalism classic. Five spectators merely peek at a card yet the performer flawlessly names them all.
Black Magic III - A great Bank Night effect as a spectator successfully finds a drawing placed into an envelope and mixed with three others. Unfortunately, she manages to miss out on the currency contained in the others!
Booktest - The performer divines a word freely selected from an ordinary paperback book. Even more amazingly, the performer then correctly identifies a word the spectator draws out of thin air.
Pro-monition - A spectator is asked to think of a card, which is found to be the only one missing from the deck. The performer then has a spectator remove the selected card from his pocket.
Center Tear - Great work on one of mentalism's most powerful tools. Mastery of this technique will give you the ability to read minds any time, any place.
Teleportation - A page is selected from a book by one spectator while an empty envelope is given to another. On the performer's command, a piece of the selected page vanishes and is found in the envelope. When compared, the piece fits exactly!
Decisions! Decisions! - A powerful version of the classic "Stop!" trick. The performer selects a card and places it into an envelope. Cards are then dealt fairly from another deck until a spectator calls 'stop.' Though it's a completely fair choice, the designated card is found to match the one in the envelope.
Super Force - Through the performer's apparent mental powers, one spectator locates another spectator's chosen card under impossible conditions.
Bending Wine Glass - Forget spoons! The performer causes a wine glass to visibly bend at the stem though he is nowhere near it. What's more, he also causes two other glasses to bend—while spectators are holding them!

VOLUME 2 - CABARET MAGIC

Six Card Repeat - An ultra-easy version of this magical classic with a surprise ending guaranteed to fool even those in the know!
Borrowed Bill in Borrowed Cigarette - One half of a borrowed bill is discovered in a truly impossible place - inside a cigarette that was also borrowed!
Comedy Rope Trick - The Professor's Nightmare turned on its head! A length of rope is clearly cut into three equal pieces yet the pieces are shown to be three different lengths. They become equal yet again and one piece is thrown into the audience. The other two are tied together and then instantly restored into a single length - which may be examined!
Comedy Mindreading - Three playing cards are selected and, after several vain but amusing attempts to find them, the performer finally locates each in increasingly amazing and impossible ways.
The Fastest Card Trick in the World - Don't blink as a signed playing card and a borrowed credit card make an impossible journey.
Coin Through Sleeves - A most-magical version of the classic Winged Silver as a coin mysteriously travels from one hand, up the performer's sleeve, across his shoulders and into a glass held in the other hand. As a finale, the performer explains the process—using milk!
Bill in Lightbulb - A borrowed bill is torn in half. One half is vanished and travels into the most unlikely of places—the center of an ordinary light bulb that was burning brightly just moments before!
Bill in Lemon - If you think you know this one, you haven't seen the Lesley version. Again, one half of a borrowed bill vanishes from an envelope held by a spectator and is found inside a lemon that was in plain sight throughout.

The Dance of Shiva by Docc Hilford

Imagine this: you ask someone to think of a line from their favorite poem. Something you could not possibly know. They write the sentence across the center of their business card. They fold it and drop it on the table. You pick it up, tighten the creases, and place it in their palm. Actions that take less than five seconds. The folded card never leaves their view. In that brief time, you have read the entire sentence right in front of the spectator! After revealing the secret information, the card can be opened, checked, and even shown to the spectator! You don't have to tear up the paper in order to get the information like a Center Tear. You only use the single billet! There isn't any switching. The Dance of Shiva delivers the information to you as fast as you can read it, but keeps it in view for as long as you need. No quick glances. The same billet is always in view. You use only your hands and the paper or card. You don't shield the card at any time. The Dance of Shiva can be used to answer questions, duplicate designs, in word tests with actual book pages, with playing cards, maps or about any creative mental effect where secret information is needed. • No special props; you're always ready. • It can be done surrounded or standing. • There is no need for a dummy or duplicate billet. • No need to openly tear the billet apart to get the information as in the Center Tear. • No tilting or squeezing of the billet - not a peek! • The folded billet never leaves the sight of the sitter. • The information is read in front of the sitter, not on your lap or behind something. • No windows cut in the card; it can be their business card. • There is no switching. • The information is in front of you, so you do not have to read quickly. • You are absolutely clean before and after the effect. • It takes less than 5 seconds to reveal the writing. • The method can be repeated for the same audience! • The written information is in the center of the card as it logically should be. • When writing, the sitter has complete freedom to handle the card. • Unlike anything previously invented by anyone, really! • Plus 16 additional original effects and handling tips. **\$45.00**

Eugene Burger: The Chicago Tapes, on DVD!

The Chicago Tapes by Eugene Burger, is actually a set of 3 DVD's and one explanation booklet. This incredible collection features an in depth look into the routines, effects, and even the life of Eugene Burger. This collection is truly a must have!

EUGENE GOES BIZARRE - This 90-minute DVD features performances, interviews, and teaching segments, plus an *Afternoon with a Magician*, a 14-minute

video produced by Michael Caplan in 1988 in which Eugene takes you to his favorite Chicago cemetery to discuss his philosophy of magic. Among the performances, you'll see Eugene's Retribution, a chilling new presentation of an ancient rite. You'll experience Jay Inglee's mysterious Book of Ghosts and take a visit to the unusual home of Tony Andruzzi. In addition, Eugene Burger conducts an in-depth

teaching session on the classic Haunted Pack, explaining all the subtle details and important secrets.

GOURMET CLOSE-UP MAGIC - See Eugene in action, just as if you were to visit the famous Biggs restaurant in Chicago. Watch him perform three shows: Working behind the bar, seated at a dinner table, and doing stand-up walk-around in the lounge. You'll see the magic that has brought him international acclaim, including his Three Card Monte, Allerton's Aspirin Box, Thought Sender, Shotglass Surprise, Voodoo, and much more! Then spend some time with Eugene as he teaches you three of his great professional presentations with in-depth explanations. Learn his mind-blowing version of the Mullica Wallet along with David Parr's devious handling; Matt Schullen's knockout Signed Card Under the Tablecloth; and Shotglass Surprise, an unbelievable production of a glass of liquid from a folded paper bag! Eugene teaches you all the important tips and psychology for actual performance. Finally, David Parr interviews Eugene about his experiences performing in restaurants. They discuss how to solve the awkward moment of approaching customers cold, how to handle repeat customers, dealing with rips, and closing the show.

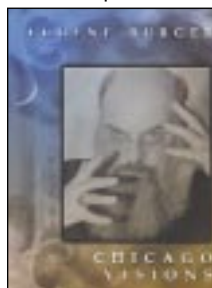

REAL SECRETS OF CLOSE-UP MAGIC - In this 70-minute DVD, Eugene Burger looks beyond tricks to explore the process by which we learn to perform magic. These real secrets are illustrated with sure-fire routines taken from Eugene's own professional repertoire. You'll learn:

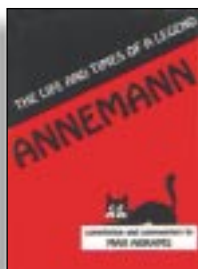

- A terrific version of Cutting the Aces in which the spectator finds the last Ace by cutting the deck and spelling his own name
- The World's Fastest Card Trick (Eugene's favorite!)
- The full work on Making Cigarettes Disappear (two different methods, for every performance condition)
- An Old Carnival Game (Eugene's version of the classic Glass Under the Newspaper)
- The Acrobatic Matchbox (it stands up, opens itself, and gets handed out for examination)
- The Three Coin Mystery (a surprising vanish and a delightful example of commercial close-up routine)
- And a special bonus: Eugene discusses Al Baker's Impossible Card Force (one of the most deceptive card forces of all time)

BONUS WHEN YOU BUY THE 3-VOLUME SET:

CHICAGO VISIONS - This incredible little booklet holds all the secrets behind the Chicago Tapes. Inside the booklet, Eugene is interviewed by some of today's best magicians about each one of the DVDs. Eugene shares everything from the conception of the routines to the execution of the effects. Imagine asking a spectator to think of any number. You write a prediction on the back of your business card. When they say their number, you turn over your card and it matches. Every time! Does magic get any more direct than this? Now you can predict a spectator's freely thought of name, number, date, age—even the amount of change in their pocket. The list goes on and on—and your reputation will only grow and grow!

All this is possible with the Super Sharpie. The Super Sharpie is a revolutionary redesign of mentalism's most potent weapon. It's so incredibly simple to use, you'll be performing mind boggling mental miracles just minutes after practicing with it. The Super Sharpie can be used as a regular Sharpie—because it is! Feel free to hand it to spectators to sign cards—they'll never discover its hidden secret. In the 15-minute companion CD-ROM (PC and Mac), you'll learn the expert technique that will get you up and running with your Super Sharpie immediately. **\$39.95**

A deck of cards is shown to be in no special order. The magician takes all the picture cards from it in a separate stack and starts showing them two by two. They never match, neither in value nor in suit. When the magician wants, they all appear to be in matching couples (King of Hearts and Jack of Diamonds). The rest of the deck is shown to be in no special order. The magician shows a spectator and the same thing will happen with him (e.g. 10 of Clubs and 10 of Spades, etc, etc). **\$29.95**

Before Street Magic, before Restaurant Magic and before Walk-Around Magic, there was Table Magic where a magician would join audiences at their table in a restaurant or bar and entertain them. Karl Norman has spent more than 50 years as a professional magician and on this DVD he explains the routines he uses when performing close-up table magic. Karl also performed behind the bar at the famed Forks Hotel in Buffalo, New York for more than 25 years and shares the routines he used when working with Eddie Fechter. In addition to learning all the magic on this DVD, you will experience Karl's charming, funny and often corny presentations that make him a lovable magician and entertainer. Routines performed and explained: The Coin Collection • Whole Hole • The Coin In The Bottle • The Invisible Sky Hook • Matchboxes Routine • The Shrinking Giant • Card To The Case • The Card On The Forehead • Ring Flight • Change Of A Quarter • Bill In The Cigarette • Key Card Routines • Linking Pins • Card On The Ceiling • The Three Shell Game • It's The Nuts • Torn And Restored Cigarette **\$34.95** (DVD only)

Kurt Vonnegut
THE LIGHTNING BOOK
WITH VITO MICO

 The basic routine has a spectator think of any card from a blue-backed deck as you insert a face-down red-backed card into the deck. When the cards are spread, the red-backer is discovered directly next to the spectator's thought-of card. Not only that—the face of the red-backer matches the mental selection! Also includes bonus routines Mental-Physical and White Out. Very easy to do. **\$25.00**
